Body: **2 door Convertible**

Red Leather piped black interior, We are selling this car for a local person who has owned the car for the past 21years. They purchased the car restored and have continued to invest in the car with lots of service history showing the many £1000's spent on it. They have also had a new hood fitted to the car. The car has completed a tour of France where it performed well even going over the Alps. The car was recently MOT'd on 20th April and passed without any failures and no advisories. The car has been garaged since being owned by our client and there are no obvious signs of any rust or blistering on the paintwork. The car drives exceptionally well and all the tyres are in good condition. We have a comprehensive folder showing all the bills and photographs of its restoration. These are available to view in our showroom. This is an affordable classic in which to have lots of summer fun or wrapped up warm on those sunny but cold winter days., We are located 3 miles from J4-M40 and J8/9-M4, Open Monday - Saturday, We are a local family business established since 1993 with almost forty years experience in the Motor Trade.
